### SUMMARY

Specialized in working at the intersection of design & development.

Experienced in creating web sites & web apps that are accessible, functional & beautiful.

A strong communicator and problem solver with 12+ years of experience.

### EXPERIENCE

#### **Pantheon Data — UI/UX Developer**

September 2021 - January 2025 / Remote

Sole designer/developer creating the front-end of AI software for the United States Navy as an official government contractor with a security clearance. Used Typescript, React, Tanstack Table, Vite, Figma.

#### **Ycode — Front End Developer**

September 2021 - January 2025 / Remote

Developer on a Vue.js application which enabled users to create advanced websites with no-code. Implemented no-code animations using GSAP, design features using Tailwind CSS, no-code sliders and lightboxes, etc.

#### **Netalico (Agency) - Ecommerce Developer**

Dec 2020 - September 2021 / Remote

Built and maintained high-profile ecommerce sites on the Shopify platform.

#### **WeaveUp - Front End Developer & UX Designer**

July 2019 - Dec 2020 / Remote

Developed and designed software for uploading, customizing and purchasing textile designs. Used Vue.JS, Vuex, Tailwind CSS and Jest.

#### **META+LAB at Cal State Northridge - Mentor & Teacher**

May 2018 - July 2019 / Northridge, CA

Mentored & led a team of students in an agile SCRUM environment developing Vue.JS applications. Taught front-end development bootcamps.

#### **Fluent (Agency) - Front End Developer**

Jan 2014 - Nov 2017 / Venice, CA

Built custom responsive ecommerce websites and landing pages.

### QUALIFICATIONS

Proficiency in Javascript, Typescript, React, Vue.js, Tailwind CSS, Git, Responsive Design, UI/UX, style guides, animations, designing and prototyping in Figma.

12+ years in web development and web design; 6 years in ecommerce and 6 years in software development.

Mentored, taught, and led a team of student engineers.

A collaborative, communicative, and passionate team-player.

### EDUCATION

#### **Cal State Northridge — B.A. in Multimedia**

2008 - 2012

Studied web design, graphic design, programming, animation and video editing.

#### **Learn UI Design - Graduate**

2023 - 2024

An online course with a curriculum covering 70+ hours of topics including color theory, typography, branding and Figma.
