Andrew Grano • Front End Design Engineer

Los Angeles, California • andrewgrano.com • andrewgrano@gmail.com • (858) 231-6482

SUMMARY

- 12+ years of experience working at the intersection of design and development.
- Specialized in translating product and design concepts into accessible, responsive, production-ready interfaces.
- Experienced in building design tools, AI-powered platforms, e-commerce experiences, design systems, and component-driven products.

SKILLS

Front End • HTML, CSS, JavaScript, TypeScript, React, Next.js, Vue.js, Tailwind CSS, GSAP

Design Engineering • Design systems, reusable component development, responsive UI development, accessibility, animation, Figma prototyping

Platforms & Tools • Electron, Shopify, Git, Jest, Cursor, Claude

Domains • AI-powered design tools, visual development platforms, e-commerce

Leadership & Collaboration • Mentoring, technical instruction, cross-functional communication

EXPERIENCE

Designbase • Founding Engineer

September 2025 - Current • Remote

- Founding engineer on an AI-native design tool for managing any React component library, creating prototypes grounded in production code, and sharing product context among AI agents, developers, and designers.
- Developed core functionality for the Electron desktop application, translating product concepts into polished user-facing workflows.
- Designed and implemented complex, reusable React components for the product's extensive design system.

Ycode • Lead Front End Developer

September 2021 - January 2025 • Remote

- Developed core functionality for a no-code platform for building and managing advanced, responsive websites.
- Designed and implemented drag-and-drop tools and CMS content-editing experiences.

- Created an intuitive UI for applying Tailwind styles, iimplemented reusable website components.
- Built a visual animation interface that enabled users to create and configure GSAP-powered animations without writing code.

Netalico (E-Commerce Agency) • Front End Developer

December 2020 - September 2021 • Remote

- Built and maintained complex, high-profile Shopify storefronts from the ground up for agency clients.
- Developed flexible, reusable theme components that enabled clients to manage and update site content without writing code.

WeaveUp • Front End Developer / UX Designer

July 2019 - December 2020 • Remote

- Designed and built an application for uploading, customizing, and purchasing textile designs.
- Designed and implemented admin screens for managing the platform's operations.
- Built interfaces using Vue.js, Vuex, and Tailwind CSS, with automated testing in Jest.

Cal State Northridge (META+LAB) • Mentor / Teacher

May 2018 - July 2019 • Northridge, CA

- Mentored and led a student engineering team building Vue.js applications in an agile Scrum environment.
- Developed and taught front end development bootcamps.

Fluent (E-Commerce Agency) • Front End Developer

January 2014 - November 2017 • Venice, CA

- Built custom, responsive e-commerce websites and landing pages for agency clients.
- Collaborated directly with designers and developers.

EDUCATION

Cal State Northridge • B.A. in Multimedia • 2012

Studied web design, graphic design, programming, animation, and video editing.

Learn UI Design • Online Course • 2024

Completed 70+ hours of training in color theory, typography, branding and interface design in Figma.
